MILITARY LEATHER BOOTS

Military Boots Storm Model

- Military Boots Storm Model 100% Waterproof Military Tactical Boots (Storm Dry Tex Waterproof with zipper)

- It is a long-lasting and durable operational military boot with its outer structure made of nubuck leather and cordura fabric. With Dry tex technology, the boot not only breathes, but also turns your feet into a sweat-proof and waterproof structure.

- Thanks to the polyester and antibacterial lining used in the interior, microbial formation is prevented and durability is ensured. Injection-printed sole is very absorbent and very comfortable thanks to its soft structure.

- It is known as the lowa model because of its durable injection base and similar shape. Military units that had to march for a long time tried, tested and found it very successful.

- The sole has a non-slip feature and this feature facilitates the user's work, especially on wet surfaces.

- It is durable with its water-repellent and polyester laces and does not let the user down. Our operational military boots, which completed the durability test with 500,000 steps on real ground, are long-lasting. Its use in rough mountainous terrain is successful and maintains the balance of the person.

- Stainless hooks and eyelets, which are not found in many other products, also offer a separate comfort to the user. Black military boots and due to its durability; It is suitable for use by all operational units, units such as police special operations, military commando units, gendarmerie special operations.
